Adding a Block

This page demonstrates the steps in adding a Block in UVLe.

**Turn editing on and add a block**

After logging in, go to your assigned course. Click on (1) **Turn editing on** and on (2) **Add** under **Add a block** (see blue rectangle above). Then choose a particular Block to be added (in this example, **Quickmail** block).
Once done, you should see an added block. In this case **Quickmail** (see blue rectangle above).
